SCHOOL OF COMPUTING

PROJECT DIARY

Student: Andrew Rocke   **Supervisor: Petros Karadimas**

Date: 08/10/2024   **Last diary date: September**

Objectives:

Collection of literature, and reading, starting to write up initial report paragraphs on ICS and IDS Initial installation and development of the Snort Tool Dataset Definition

Progress:

Good progress on the first two paragraphs for literature review. Lots of material for IDS and experienced in ICS Issues with Installing Snort 3 on Ubuntu Identified the Westermo Dataset, reviewed dataset and like the fact it provides CSV files as well as PCAPs, so some of the work is already with the dataset preprocessing

Supervisor's Comments:
